

Website build brief from client

If people search for your business using Google - What will they type into the search box? List as many search terms or phrases that you can think of.

Your website has a Home and Contact Us page as standard. What are the other pages going to be called?

What colour scheme would you like?
(Blue background, white navigation buttons etc)

Do you have an ideal layout?

(Home page to have just images with a paragraph of text)

Do you have any images you would like Freecom.net to use on your website?

(Please note you must own the copyright to these images - Freecom will not be held liable for illegal content.)

Which pages on the website are the images to be placed?

Do you have a company logo? If so please email it to your account manager.

Any other information you want included that is not detailed above?

Content for each page - the text

(Send as an email attachment to your account manager in either pdf or word document)

Please provide the contact information for the 'contact' page of the website.

(Address, email, phone/mobile numbers etc.)

Please provide an examples of websites that you like for our web design team to use for inspiration for your website

Anything else not included above that you would like to be incorporated onto your website?
